EU MISSIONS

Concrete solutions for our greatest challenges

#EUmissions #HorizonEU

Why do we need missions?

- Offer a different way to generate **impact**

Increased focus on goals, collaborative work, portfolio approach

- Bring Europe **closer to people**

Acting upon issues that citizens care about

- Deliver the **priorities of the European Commission**

Green Deal, Beating Cancer Action Plan, Conference on the Future of Europe...

What are missions?

EU Missions should:

- Be bold and inspirational, with wide societal relevance;
- Indicate a clear direction: targeted, measurable and time-bound;
- Be ambitious but realistic;
- Spark innovation across disciplines, sectors and actors;
- Be based on a bottom-up approach.

Scan me to read the report

How do EU Missions operate?

Delivering impact through:

- Aligning priorities and policies at European and national level
- Implementing an 'all-in' approach
- Promoting a new relationship with citizens
- Linking programmes and building synergies
- Maintaining flexibility (no one-size-fits-all)

The 5 EU Missions

Adaptation to Climate Change: support at least 150 European regions and communities to become climate resilient by 2030

100 Climate-neutral and Smart Cities by 2030

Cancer: working with Europe's Beating Cancer Plan to improve lives of more than 3 million by 2030

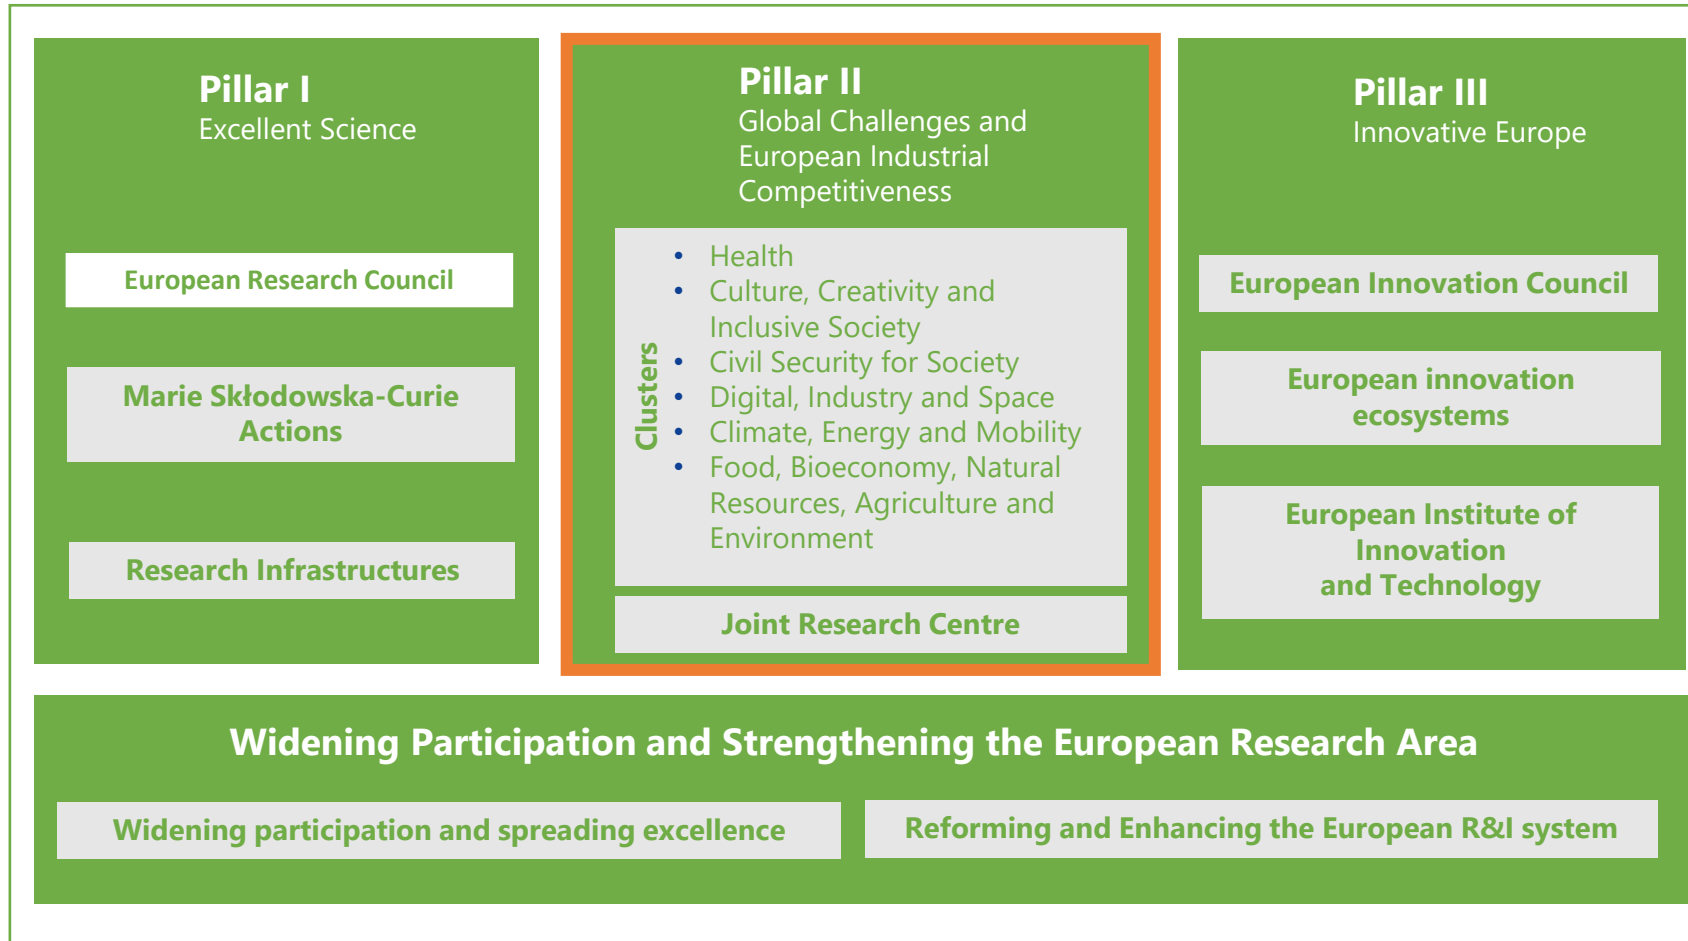

A Soil Deal for Europe: 100 living labs and lighthouses to lead the transition towards healthy soils by 2030

Restore our Ocean and Waters by 2030

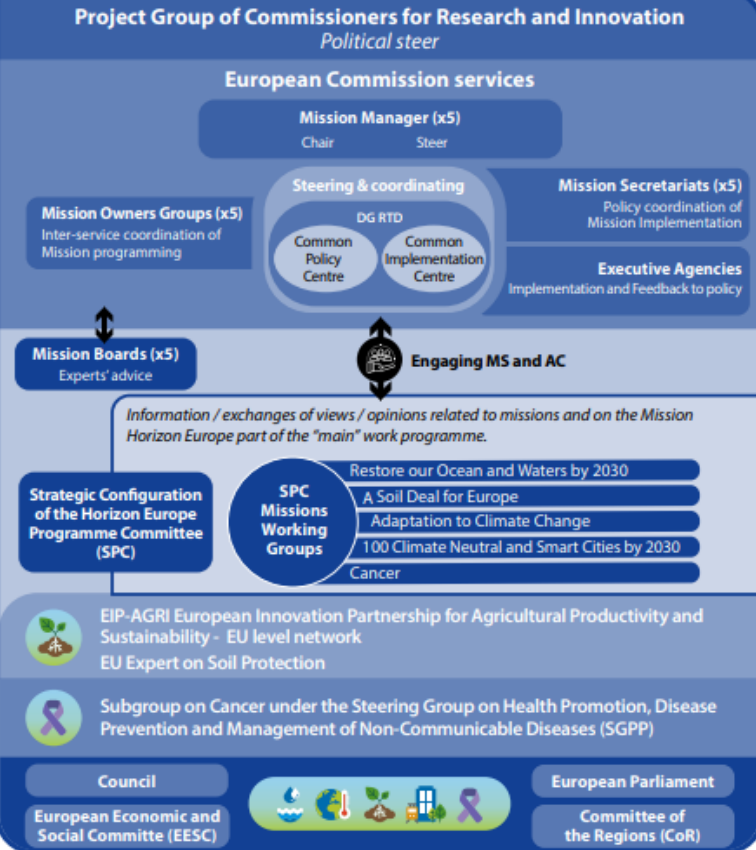

Missions budget 2021-2023: 10% Pillar II HE ~1.8 billion

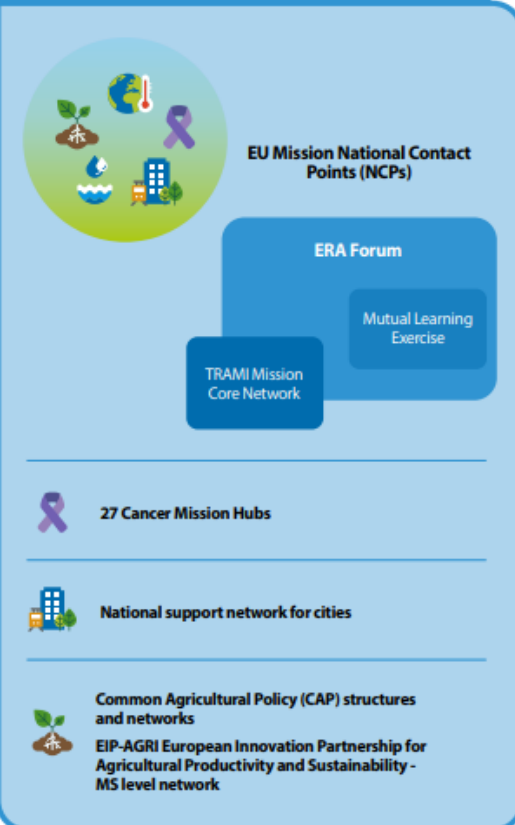

EU level: strategic dialogue and programming

Strategic discussion and steering of EU Missions, including the preparation of Horizon Europe EU Missions work programme part.

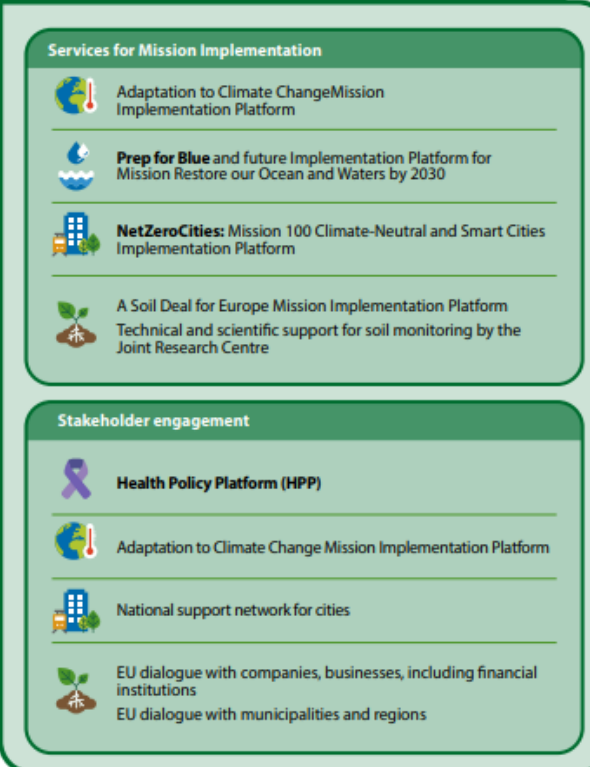

Initiatives and networks with Member States

These structures will favour mutual exchanges, raise awareness and foster dialogue on EU Missions at national, regional and local levels, etc.

Interlinking with the regional and local levels

These structures represent "entry points" for stakeholders to engage with specific EU missions. They are grouped based on the type of activities they provide. The upper box contains structures that provide services to help amongst others with monitoring, reporting, citizens engagement, communication, etc. The bottom box contains structures that will constitute a forum for dialogue with the different missions stakeholders.

Conference on the Future of Europe

Citizen engagement: co-designing, co-deployment, co-monitoring

Communication on EU Missions: context

- On 19 July 2023 EC adopted the [Communication](#): “EU Missions two years on: assessment of progress and way forward”
- It contains key messages regarding the main achievements of EU Missions since their inception, as well as critical challenges faced by them. It also presents a set of proposals to address such challenges
- Supported by a Staff Working Document which presents comprehensive evidence on which the messages of the Communication are grounded
 - Final report [study](#) published in September
- Communication and SWD fulfil legal obligation under Horizon Europe regulation to assess the Missions (article 8.5) and to review the mission areas

Communication on EU Missions: main messages

- The assessment of EU missions confirms that they
 - are timely and inspirational initiatives
 - provide new impetus to important EU policy priorities
 - help aligning EU, national, regional and local policy efforts towards shared goals
 - have encouraged broad engagement and active participation of stakeholders
 - are overall progressing in line with their implementation plans.
- However, EU missions need to be further supported in reaching their long-term goals, notably by:
 - strengthening political steer and improving governance
 - facilitating access to resources and funding
 - Continue to enhance citizens and stakeholders' engagement

Communication proposals & next steps

- Improve the **political steer** and **governance** of EU Missions
 - Invest in strengthening joint support functions ('back office')
 - Further involve the relevant thematic Council formations and European Parliament committees
 - Streamline EU Mission governance to make it more efficient, inclusive, and effective
- Secure **more and better co-investment**, including from the private sector
 - Mobilise a broader portfolio of instruments, including public-private partnerships and the public procurement of innovation
 - Intensify discussions on alignment of Member States' programming of EU funding with Missions
 - Streamline EU Mission governance to make it more efficient, inclusive, and effective
- Enhance citizen and stakeholder **engagement**
 - Undertake targeted actions to support local and national communication efforts to boost citizen engagement and raise public awareness.
 - Organise a public debate on the implementation reports to draw lessons, discuss progress, and communicate achievements of the EU Missions
