# La participation du JRC aux projets Horizon Europe

**JRC mentionné dans un topic** : topic qui mentionne le JRC dans ses conditions d'éligibilité et décrit sa contribution potentielle dans le scope du topic  
 → le JRC peut participer en tant que **bénéficiaire sans financement ou en tant que partenaire associé**.

**JRC non mentionné** :  
 → le JRC peut être impliqué dans le projet mais **pas en tant que bénéficiaire**. Il peut par exemple faire partie d'un « scientific advisory board »

Principe de participation du JRC :

- le JRC **ne peut pas participer à la phase de préparation de la proposition**
- le JRC et ne peut rejoindre le consortium **qu'une fois le projet retenu pour financement**
- le JRC ne reçoit pas de financement de la CE, **ses activités sont financées avec son propre budget**.

HORIZON-CL6-2026-01-BIODIV-02: Developing methods to assess the presence, functions and sensitivity of groundwater ecosystems

Call: Call 01 - single stage (2026)	
Specific conditions	
<i>Expected EU contribution per project</i>	The Commission estimates that an EU contribution of around EUR 5.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<i>Indicative budget</i>	The total indicative budget for the topic is EUR 10.00 million.
<i>Type of Action</i>	Research and Innovation Actions
<i>Eligibility conditions</i>	The conditions are described in General Annex B. The following exceptions apply: The Joint Research Centre (JRC) may participate as member of the consortium selected for funding as a beneficiary with zero funding, or as an associated partner. The JRC will not participate in the preparation and submission of the proposal - see General Annex B.

## Phase de préparation de la proposition:

-Le JRC ne **peut pas participer à la rédaction de la proposition**. Toutefois, si les candidats le souhaitent, ils peuvent envisager dans leur proposition la **contribution potentielle du JRC** sur la base des informations fournies dans le texte du topic.

-Si ces informations sont insuffisantes, le consortium **peut rechercher des informations supplémentaires** accessibles au public sur le site web du JRC ([EU Science Hub homepage \(europa.eu\)](http://eu-science-hub.europa.eu)), sur le portail NCP, ou demander des informations spécifiques au JRC si nécessaire.

-Le JRC doit s'assurer que **tous les autres candidats reçoivent les mêmes informations** sur la contribution éventuelle du JRC au projet (par exemple via la FAQ du portail «Funding and tenders »

## Phase de sélection

- Négociation :**Une fois qu'une proposition a été sélectionnée pour financement**: négociation entre le/les consortiums retenus et le JRC pour déterminer les conditions spécifiques de la participation du JRC dans le projet.

- Si un **accord est conclu**, le JRC rejoint la convention de subvention en tant que bénéficiaire ne demandant aucun financement ou en tant que partenaire associé.

-Si **aucun accord n'est trouvé**, le JRC ne rejoindra pas le consortium, qui devra alors poursuivre sans sa participation: Les **projets doivent être réalisables même sans la contribution du JRC**.

# Exemples de contribution du JRC aux projets Horizon Europe

---

Le JRC peut jouer un **rôle d'interface** entre les activités de recherche et les dimensions réglementaires.

Le JRC peut mener des actions de **gestion des connaissances** et contribuer à garantir que les résultats de recherche pertinents soient effectivement **pris en compte dans l'élaboration des politiques**, favorisant ainsi un retour d'information efficace vers les politiques publiques dans le cadre d'Horizon Europe et d'autres politiques de l'UE.

Le JRC peut notamment assurer **l'intégration des résultats de recherche et des données dans des bases de données**, ainsi que leur maintenance, la validation et l'entretien de modèles, la fourniture de conseils, l'analyse de données, entre autres activités.

Il peut également **donner accès à ses infrastructures de recherche**, à ses systèmes d'information, à ses bases de données et à ses modèles.

# Centres de connaissances et plateformes de données du JRC dans le cadre d'Horizon Europe

- European Platform on Life Cycle Assessment (EPLCA)
- Raw Materials Information System (RMIS)
- European Soil Observatory (EUSO)
- Integrated Natural Capital Accounting (INCA) platform
- EC Knowledge Centre for Biodiversity
- EC Knowledge Centre for Bioeconomy
- Africa Knowledge Platform
- EC Knowledge Centre on Earth Observation;
- EU Forests Observatory
- EC Knowledge Centre for Global Food and Nutrition Security
- Strategic Energy Technologies Information System: SETIS
- The Transport Research and Innovation Monitoring and Information System: TRIMIS
- The Energy and Industry Geography Lab: EIGL
- The Innovation Centre for Industrial Transformation and Emissions (INCITE)
- Innovation in the Built Environment Research Group (iBUILT+).
- Knowledge Centre on Migration and Demography
- Competence Centre on Participative and Deliberative Democracy
- Knowledge Centre on Cancer: [lien](#)
