HOW THE MSCA MATCHMAKING PLATFORM WORKS

1. Register in the MSCA Matchmaking Platform

Register via the [Register button](#).

2. Create your profile to showcase who you are and for what are you looking for, and what are you offering

Create a clear and concise profile to raise your visibility on the platform.

Your profile should describe who you are, what you can offer to potential candidates and partners. Don't forget to add a pitch, biography, your skills and interests to your profile. A good networking profile will generate significantly more meeting requests. DONT FORGET to include at least one item in the marketplace to be validated; it could be a project idea, offering an expertise or request a need. Include how to contact you e-mail, form, etc.

3. Browse profiles of attendees

Go to the participants list to find out who you could meet at the event and who is offering interesting and promising business opportunities. Use the filters on the right or browse through your AI Profile recommendations in the My Matches section to narrow down your selection and find the most suitable collaboration partners that match your goals and interests. This allows you to maximize your chances of making valuable connections and achieving successful outcomes at the event.

4. Send & receive meeting requests and messages

Browse participant profiles and send meeting requests to those you want to meet during the event. Send out messages to interesting participants to introduce yourself and initiate conversations even before the event to establish stronger connections.

5. My schedule and meetings overview

Access your meetings in My Schedule or Meetings, where you have your complete schedule for the event, as well as the list of your meetings. If it is a virtual meeting, check your camera and microphone before joining, and don't be late!
